Dataset Profile and Verified Facts

Project: Electric Vehicle Market Performance & Insights

Source file: `ev_market_test.csv`

Profile generated from the supplied CSV.

- Records: **100,000**
- Fields: **37**
- Distinct vehicle IDs: **100,000**
- Duplicate complete rows: **0**
- Duplicate vehicle IDs: **0**
- Total missing cells: **9,511** out of 3,700,000 cells (0.257%)
- Model-year coverage: **2018–2026**
- Manufacturers: **200**
- Manufacturing countries: **10**
- Market regions: **7**
- Vehicle categories: **15**
- Battery types: **5**

Missingness by field

Field | Missing cells | Share of records

resale_value_pct_3yr | 3057 | 3.06%

battery_cycle_life | 2028 | 2.03%

customer_rating | 1931 | 1.93%

infotainment_screen_inch | 1506 | 1.51%

annual_sales_units | 989 | 0.99%

Important interpretation note

The CSV itself does not identify its source, sampling design, or whether records are measured, estimated, simulated, or synthetic. Treat results as **patterns in this supplied dataset**, not automatically as real-world market totals. Definitions for cycle life, annual sales, CO■ saved, charging times, autonomy levels, and customer ratings should be verified against source documentation before external claims are made.

Field groups

- **Identity:** `vehicle_id`, `model_name`, `manufacturer`.
- **Geography and time:** `model_year`, `manufacturing_country`, `market_region`.
- **Classification:** `category`, `battery_type`, `drivetrain`, `recommended_use_case`.
- **Battery and range:** `battery_capacity_kwh`, `battery_cycle_life`, `battery_degradation_pct_5yr`, `range_km`, `efficiency_wh_per_km`.

- **Performance and charging:** motor power, torque, motor count, top speed, acceleration, DC charging power/time, AC charging time, ports.
- **Ownership and design:** seats, weight, cargo capacity, price, insurance, warranty, resale value.
- **Safety and interface:** safety stars, autonomy level, infotainment screen size.
- **Impact and market/customer indicators:** CO■ saved, annual sales units, customer rating.

Source limitations

No source URL, license, collection date, sampling method, or data-generation documentation was supplied alongside the file. Numeric plausibility alone cannot prove whether records are measured, estimated, or synthetic. This is a key limitation to state in any presentation.
